

End2End Drone + AI Solution for Military + Civil Reconnaissance

Artificial Intelligence automates

- Calculation of **optimal flight route** for individual task + environment
- **Flight execution**
- Object classification and tracking, even of (partly) **camouflaged objects**
- Generation of **reliable situation map**

PREDICTIVE
INTELLIGENCE

Benefits

- **Easy** to use and **less HR** / less skills required
- **Reliable** and **trusted**
- **Adaptive** and **scalable**

AI References

Proven at military (under non-disclosure)

Project Examples

Flexible usage, i.e.

- Automated inventory
- Detection of military vehicles

Innovation Awards

About IS Predict GmbH

We realize adaptive and trusted Artificial Intelligence solutions. Our PREDICTIVE INTELLIGENCE automates difficult and dangerous tasks. We are a part of IDS Scheer Holding.
